What do students gain?

An Antipodeans Expedition is first and foremost 'student-led'. Facilitated by a highly qualified Antipodeans Leader, students are encouraged to work together to manage the team budget, accommodation, transport and meals throughout their journey. This drives students to make real-world decisions, take responsibility for their actions; and in the process, develop vital life skills. Guided by an expert support team and leader, students gain a true appreciation of their host country, learn to work together as a team, become 'global citizens' and of course, have the time of their young lives!

About Antipodeans

The Expedition is managed by student travel specialists, Antipodeans, who bring over 27 years' experience in conducting high school Expeditions through 30+ developing countries. You can read more about Antipodeans' Expeditions online at: www.antipodeans.com.au

Rewarding, hands-on community service projects are the central focus of this Expedition. Antipodeans' carefully selected projects are sustainable and safe, provide local employment and are created in consultation with local communities, many of whom have been working with Antipodeans for a number of years.

This is truly a once in a lifetime experience that we encourage you to find out more about! If you have any difficulty registering for the event, please don't hesitate to contact us using the details below.
