Japan Study Trip 2024

Day 3 - Tuesday

After breakfast, we set off for the train station at 8:45am, heading to Asakusa.

Once there, we entered through The Kaminarimon, explored the stunning Senso-ji Temple, and enjoyed shopping at Nakamise-Shotengai, where some of us picked up fortunes.

After lunch, we took a scenic cruise to Odaiba, followed by a train ride to TeamLab, which was an absolute highlight. We immersed ourselves in captivating rooms filled with mesmerizing art installations.

In Odaiba, we capped off our day with a delightful dinner and more shopping. We returned home safely around 9:00pm, after a long but rewarding day.

Day 4 - Wednesday

A slower start to the day allowed us to get breakfast with our friends before travelling to “the happiest place on earth”

Stepping off the train and seeing Disneyland was an experience unmatched. We could roam Disneyland, experiencing as many rides and opportunities as possible. Most purchased Disney themed food and snacks while exploring the park.

Some highlights of the day included Splash Mountain, Pirates of the Caribbean, and meeting characters.

While it was disappointing that the big parade and fireworks were cancelled due to wet conditions, we enjoyed staying late to see the incredible castle lit up. The jam packed 10 hours in Disneyland left us exhausted but with big smiles on our faces.
