Japan Study Trip 2024

Day 6 – Friday

After a buffet breakfast at Grand Intelligent Annex Hotel, we caught the train and then took a short ferry ride to Miyajima Island. There were so many things to do such as visit the majestic Torii gates or find the shrines and temples scattered across the island. One of the main attractions of the island is the wild 'しか' (deer), which roam freely and are friendly and approachable. Even after countless warnings about the mischievous hungry deer, Ivan's map and Marcel's fan fell victim to the wild animals.

After eating some fried chicken and other snacks on the island, we returned to the hotel to grab our luggage and took a 1.5-hour Shinkansen to Kyoto. Tonight, we are staying in a traditional Ryokan (Japanese style inn) which has tatami floors and futons (floor beds).
